Chadstone Place Development Approvals Implementation – Middle Road Works

In May 2006 we advised you that the development works for the Chadstone Place projects would start to take shape in 2006 with the major works in 2007. We can now advise that the preliminary construction activities for the Middle Road road widening will take place from October 2006. The first works will be confined to the demolition of houses and some preparatory works. Middle Road will continue to operate in the way that it does now until February 2007.

From February 2007 to November 2007, the works in Middle Road will take place in stages. This will cause changes in local access. An information sheet will be sent to you outlining these changes and providing information/contact instructions. The owners of the Chadstone Shopping Centre have submitted detailed construction management plans and other documentation to Council as required so that these works can now proceed in accordance with the approved plans.

On the Chadstone Shopping Centre site, minor works will occur in 2006, including the demolition of some buildings that remain on the former Australian Catholic University site, together with some services relocation. In 2007, construction works will commence on the expansion of a larger JB Hi-Fi store and on new retail areas at the lower level extending out from the Kmart shop area.

A more detailed information guide on the 2007 works will be sent to you that will include a timetable and information on the management of construction of Middle Road and changes to local access.

Chadstone Events

Baby & Nursery Expo
